

God Comes To Us

by Allison Gilliam

We're always looking for God when He's right here!

A 6-foot ladder is placed on stage. One man is needed. Speaker always waits for action to follow his words before going on.

A ladder is used in many of life's situations. *(Man comes forward.)* **For instance, a ladder is used for hard-to-reach locations.** *(Man goes up one step, takes a light bulb out of his right pants pocket and pretends to 'screw it in the ceiling.')* **A ladder is used to retrieve the family pet from a high tree branch.** *(Man goes up one more step and 'reaches' for pet.)* **A ladder is used to beautify walls with paint or other finish details.** *(Man goes up one more step, takes a paint brush from his shirt pocket and 'paints.')* **But the tallest ladder could not reach high enough for us to begin to touch the real issues of our lives.** *(Man only gets one foot on next step and realizes its too dangerous, freezes there, and stretches one arm as far, as safely, as he can and holds that position.)*

GOD COMES TO US! *(Man lowers arm.)* **God comes to us to deal with the difficult times of our lives.** *(Man slowly comes down one step.)* **God comes to us to reaffirm His promises to us.** *(Man comes down one more step.)* **God comes to us to reveal His purpose for our lives.** *(Man comes down one more step.)* **God comes to us to give us comfort,** *(Man comes down last step and bows on one knee.)* **GOD COMES TO US!**
